BOND THAT'S DESIGNED TO ADD ELEGANCE.

We at **EUROBOND** - pioneers of the Metal Composite Panel industry have spent over 24 years delivering innovative, high-performance panels that transform architectural spaces. Our cutting-edge facility in Umbergaon features five advanced production lines, capable of producing 10 million m² of premium panels annually. With the addition of the most advanced coil coating line in India, we now offer infinite customization, empowering architects and designers to bring any vision to life.

Made with Alloy 3105, our panels offer superior strength, durability, and impact resistance. PVDF coating ensures enhanced formability and protection against dirt, scratches, and fading. Strict ISO 9001:2015 process control, NABL certified in-house tests, and global certifications reinforce our commitment to unmatched quality. **EUROBOND** offers over 300 designs across 30 collections, inspiring limitless creativity. Our global collaborations with brands like Euramax - for coil coating and Rheinzink - for Zinc panels help us set new standards in design and performance.

So let **EUROBOND** personify beauty in your next project.

25th YEAR

Of excellence
India's only listed ACP company

20+ COUNTRIES

Global exports due to adherence
to international standards

INTERNATIONAL COLLABORATIONS

With renowned companies like
Euramax, Netherlands & Rheinzink, Germany

10 MILLION M²

Annual production capacity
with 5 advanced production lines

510+

Workforce of highly
trained individuals

Infinite Colors

3-COAT 2-BAKE COLOUR COATING LINE

India's most advanced 3-coat 2-bake
coating process, offering infinite
colour customization

CELEBRATING THE 25TH YEAR OF

2026 marks our 25th year of excellence in the industry.

In 2002, we were among the first brands to introduce Aluminium Composite Panels to the Indian market. What began as a pioneering vision has grown into a legacy of relentless innovation, expanding our portfolio to 11 distinct product categories. We've become India's only publicly listed ACP company, manufacturing world-class metal cladding panels and exporting to over 20 countries.

Trust has always been our foundation, earned through the belief of architects, consultants, designers, builders, and fabricators who turned their vision into enduring landmarks. Your faith gave us purpose. Your projects gave us pride. Your ambition pushed us to innovate relentlessly.

As we enter this milestone year, we celebrate where we've come from, and where we're headed.

Thank you for trusting EUROBOND - then, now, and beyond.

Total Quality Assured.

Tested. *Trusted* NABL-Certified

EUROBOND is proud to be the only ACP manufacturer in India with an NABL- accredited in-house laboratory (ISO/IEC 17025), covering 16+ critical parameters of colour coil testing and performance.

Our processes, personnel, and equipment are verified as per global standards, ensuring stringent quality control at every step.

Why it matters:

- **Assured Accuracy** – Every test is validated through equipment calibration, process checks, and competency evaluations.
- **International Recognition** – Results are globally accepted under ILAC & APLAC agreements, eliminating the need for retesting overseas.
- **Accountability** – Covers all essential parameters, ensuring consistent quality from factory to project site.
- **Reliability** – We maintain 3 years of records, ensuring complete traceability. These reports add long-term value and build trust in the Eurobond brand.

Panels without NABL certification leave you with questions. With Eurobond, the answers are already tested, checked, verified, and audited.
